April 2025 12 Month Guaranteed 100% Renewable Pricing Contract for DG5 Sites - Direct Debit

The following prices may be offered to Low Voltage (DG5) sites that are 24hr, Day/Night or Smart metered. This offer is initially open for acceptance from 27 March 2025 and expires on the 1 May 2025, both inclusive, but may be withdrawn or amended at any time without notice (except for customers who have signed Contracts).

This offer is subject to continuing payment by Direct Debit within 14 days of the invoice date, is subject to credit assessment and may require a security deposit.

The Prices set out in the table below shall apply for the period described in Clause 2 of SSE Airtricity's General Terms and Conditions for the Supply of Electricity and/or Gas by SSE Airtricity Limited to Commercial Premises in the Republic of Ireland (the "T&C") until 30 April 2026 (unless such period is extended by the Customer and SSE Airtricity in accordance with the T&C). The Agreement shall commence in accordance with Clause 2 of the T&C and shall continue until 30 April 2026 (unless such period is extended by the Customer and SSE Airtricity in accordance with the T&C (the "Term").

Electricity prices include "Pass-Through" costs which arise from third-party charges for use of transmission and distribution electricity networks, wholesale market operations charges, supplier capacity charges, etc. These charges are reviewed and approved by the Commission for Regulation of Utilities ("CRU") from time-to-time and are applicable to all suppliers. In the following table, the current "Pass-Through" costs (**October 2024**) are shown in a separate column. The balance of each charge is specified as an "SSE Airtricity Energy" charge. SSE Airtricity's Total prices (the sums of the Pass-Through and SSE Airtricity Energy charges) are provided.

During the period of this Agreement, the SSE Airtricity Energy prices will remain fixed. The Pass-Through charges may vary if changes or additions are approved by CRU or other approving authority.

This electricity supply contract product is based on a guaranteed 100% renewable electricity supply backed by EU Guarantee of Origin certificates.
