April 2025 24 Month Guaranteed 100% Renewable Pricing Contract for LVMD Sites (MIC <= 526kVA) – Direct Debit

The following prices may be offered to Low Voltage Maximum Demand (DG6) NQH metered Customers with a Maximum Import Capacity less than 526kVA (or less than 250kVA for QH metered). This offer is initially open for acceptance from 27 March 2025 and expires on the 1 May 2025, both inclusive, but may be withdrawn or amended at any time without notice (except for customers who have signed Agreements).

This offer is subject to continuing payment by Direct Debit within 14 days of the invoice date, is subject to credit assessment and may require a security deposit.

The Prices set out in the table below shall apply for the period described in Clause 2 of SSE Airtricity's General Terms and Conditions for the Supply of Electricity and/or Gas by SSE Airtricity Limited to Commercial Premises in the Republic of Ireland (the "T&C") until 30 April 2027 (unless such period is extended by the Customer and SSE Airtricity in accordance with the T&C). The Agreement shall commence in accordance with Clause 2 of the T&C and shall continue until 30 April 2027 (unless such period is extended by the Customer and SSE Airtricity in accordance with the T&C (the "Term").

Electricity prices include "Pass Through" costs which arise from third-party charges for use of transmission and distribution electricity networks, wholesale market operations charges, supplier capacity charges, etc. These charges are reviewed and approved by the Commission for Regulation of Utilities ("CRU") from time-to-time and are applicable to all suppliers. In the following table, the current "Pass Through" costs (**October 2024**) are shown in a separate column. The balance of each charge is specified as an "SSE Airtricity Energy" charge. SSE Airtricity's Total prices (the sums of the Pass Through and SSE Airtricity Energy charges) are provided.

During the period of this Agreement, the SSE Airtricity Energy prices will remain fixed. The Pass Through charges may vary if changes or additions are approved by CRU or other approving authority.

This electricity supply contract product is based on a guaranteed 100% renewable electricity supply backed by EU Guarantee of Origin certificates.
